SJT Stephen Joseph Theatre

Back row seats

In the Round auditorium, the back row doesn't have any armrests - the seats are raised with a cushioned barrier in front which you can lean forwards onto. There is also a bar you can rest your feet on.

We have provided photos here of the seats and the view of the stage - please note your view will vary depending on your height and whether you lean forward or not. If you are unsure or have any questions, please contact our Box Office before your visit and we'll do everything we reasonably can to assist (01723 370541 or tickets@sjt.uk.com).
