

Designated wheelchair spaces – The Round

In the Round the wheelchair spaces are on the back row, and next to a seat for your companion. These spaces are designed to accommodate standard manual and powered wheelchairs. Some larger powered wheelchairs or mobility scooters may not fit safely within the designated spaces.

We have provided photos and approximate measurements here, but if you are unsure, please contact our Box Office before your visit and we'll do everything we reasonably can to assist (01723 370541 or tickets@sjt.uk.com).

Designated wheelchair spaces – The McCarthy

In the McCarthy the wheelchair spaces are on the front row, and next to a seat for your companion. These spaces are designed to accommodate standard manual and powered wheelchairs. Some larger powered wheelchairs or mobility scooters may not fit safely within the designated spaces.

We can accomodate further wheelchairs by taking out more front row seats – as the stage front is curved, spaces nearer the centre of the row will be slightly shallower, with a minimum depth of approximately 113cm.

We have provided photos and approximate measurements here, but if you are unsure, please contact our Box Office before your visit and we'll do everything we reasonably can to assist (01723 370541 or tickets@sjt.uk.com).
